Lindner Plus – Organisation

Building new solutions.

Lindner undertakes major worldwide projects in all areas of interior finishes, insulation technology, industrial services and building facades. From pre-planning through to project completion Lindner is your partner of choice.

The Company's extensive manufacturing capability enables quality to be strictly maintained whilst allowing maximum flexibility to meet individual project requirements.

Environmental considerations are fundamental to all Lindner's business principles.

Through partnerships with clients Lindner turns concepts into reality.

Choosing Lindner you have:

Lindner Concepts:
Tailored solutions specifically geared to satisfy individual project requirements

Lindner Products:
Quality materials and systems to the very highest industry standards

Lindner Service:
Comprehensive project management services

Lindner Plus – Organisation

Our range of organised storage components keeps your office and interiors tidy: from shelving and filing systems to whiteboards. Ensuring all your documents are stored perfectly in the right place.

Bracket-mounted shelf system

The shelf system is hooked into the substructure in the system joints. It is ideally suited for organising folders, books and other office supplies.

Item no.	Article	Photo
001	<p>Shelf system without end supports</p> <p>Flat shelf supports, for hook-on type wood or metal shelving.</p> <p>Material: Powder-coated metal; blockboard coated with white melamine resin, plastic-edged.</p> <p>Available in several dimensions.</p>	
002	<p>Shelf system with book-ends</p> <p>Book-ends, for hook-on type wood or metal shelving.</p> <p>Material: Powder-coated metal; blockboard coated with white melamine resin, plastic-edged.</p> <p>Available in several dimensions.</p>	

Integrated traverse organisation

Aluminium rails are integrated into the wood or metal wall panels of Lindner Logic partition walls, enabling organised storage for accessories.

Note:

The aluminium rails panel option must be specified when ordering the wall panels.

The system cannot be retrofitted.

Bracket-mounted traverse organisation

An elegant, minimalist rail system that uses special adapters to hook into the vertical system joints. The accessory elements are hooked into the rail. Plastic rollers are attached to the underside of the rails: these rollers can hold loose pages or charts. The accessory elements are secured in the rail and all movable boards are fitted with spacing rollers to avoid scratching the wall.

The bracket-mounted traverse organisation system can also be installed on plasterboard or exposed walls.

Item no.	Article	Photo
201	<p>Bracket-mounted organisation rail</p> <p>The bracket-mounted organisation rail is needed for all of the following products except the non-movable boards.</p> <p>Material: Anodised aluminium, matt silver Please select the colour of the decor strip in the rail (see page 16). Adapters for Lindner partition systems are included in delivery. Available in several dimensions.</p>	
202	<p>Magnet adapter</p> <p>For attaching the organisation rail to any magnetic surface. This avoids the need to have shelf perforations available in the vertical system joints.</p>	

Item no.	Article	Photo
203	<p>Whiteboard, usable on one side Magnetic fixing</p> <p>This board hooks into the rail, where it can slide freely. Material: Anodised aluminium frame, matt silver; whiteboard surface composed of scratch-proof enamelled steel sheet; erasable writing surface. Available in several dimensions.</p>	

Item no.	Article	Photo
204	<p>Fabric (pin)board*, usable on one side</p> <p>This board hooks into the rail, where it can slide freely. Material: Anodised aluminium frame, matt silver *Please choose fabric colour; see colour codes on page 16. Available in several dimensions.</p>	

Item no.	Article	Photo
205	<p>Sliding board, usable on both sides</p> <p>This board hooks into the rail, where it can slide freely. Range of possible combinations: Magnetic whiteboard + magnetic whiteboard; magnetic whiteboard + fabric* board; fabric* board + fabric* board. Material: Anodised aluminium frame, matt silver; whiteboard surface composed of scratch-proof enamelled steel sheet; erasable writing surface. *Please choose fabric colour; see colour codes on page 16. Available in several dimensions.</p>

Information

General conditions

No guarantee of availability is given for the products depicted in this brochure.

Details as given in this brochure are up-to-date and provide information about our products and their areas of application. Information is given without warranty, to the best of our knowledge and in consideration of relevant standards. For installation, follow the manufacturer's installation guidelines and the relevant standards. We reserve the right to make technical changes as a result of product developments.

Drawings and photos are for explanatory purposes only.

Technical information

- Lindner partition systems can take loads of up to 40 kg/per linear metre of wall. This figure should be considered especially as regards the loads placed on storage modules.
- Consult an expert before placing storage modules near tee joints in walls.
- If storage modules are hooked into the shelf perforations of the vertical system joints, this may reduce the wall's sound protection qualities.
- Consult an expert before attaching storage modules to walls that are subject to fire safety regulations.
- Variations in colour and finish – e.g. on anodised or powder-coated surfaces – occur normally during manufacture and cannot be used as reason for a complaint.

Special solutions possible on a project-related basis

We can do it all for you.

Lindner Concepts:

- Insulation Engineering
- Clean Rooms and Laboratories
- Airports and Airlines
